1 Media files

The product has long cords that can cause the baby to be strangled. It also has small detachable parts, which the child can easily access, put in the mouth and choke, with an additional risk of infection if the small parts get into the respiratory tract. The product does not comply with the requirements of the General Product Safety Directive and the standards EN 16890, EN 16780 and EN 16781.
